**Electrical & Computer Engineering**
**Study Plan for Master's of Science Degree**

NAME _____ AREA _____

| Admission Quarter | Plan I (Thesis) | Plan II (Comps) | Date of Graduation |
|---|---|---|---|
| | | | |

- 42 units of completed coursework
- successful completion of Linguistics courses as determined by the ELPE (English Language Placement Exam)
- CCSP students are required to take either ENGR 103 or ENGR 203.

**Plan I - Thesis Option:**

- Up to 8 units of ECE 598 may be counted towards the 42-unit requirement.
- Of the 34 remaining units, 8 courses must be completed, of which three (12 units) may be approved undergraduate level senior elective (100 series) courses.
- The 8 required courses shall not include more than the equivalent of two courses (8 units) from the following: ECE 596, independent study course, or courses taken with P/NP or S/U grading.
- At least 5 of the 8 courses must be in the ECE or CS departments.
- Thesis completed and submitted under supervision of an ECE faculty member.
- Thesis must be approved by a committee composed of 3 faculty members, 2 of whom must be ECE faculty and the third member could be from another department.

**Plan II – Comprehensive Exam Option:**

- At least 10 courses must be completed, of which at most four (16 units) may be approved undergraduate level senior elective (100 series courses) towards the 42-unit requirement.
- The 10 required courses shall not in include more than the equivalent of two courses (8 units) from the following: ECE 596, independent study course, or courses taken with P/NP or S/U grading.
- At least 7 of the 10 courses must be in the ECE or CS departments.
- Must pass the comprehensive exam or its equivalent (i.e. Ph.D. Screening Exam or project)
